# Consensus Panel Discussion Essential Cytotoxic Drugs

## Purpose:

- To reach some consensus regarding the essential cytotoxic drugs with the participation of the panel and the audience

## Product:

- Brief written summary of the session and a statement of the conclusions to be published in INCTR Newsletter
- This could be used to identify future projects that might be undertaken

# Consensus Panel Discussion

## Essential Cytotoxic Drugs

### Methodology

- Introductory presentations
- Set of 5 questions will be discussed by the panel members and the audience
- Each question will be discussed separately for around 15 minutes
- The moderators will give the floor to the panel members and then to the audience
- Dr Khaled will take notes
- The conclusions will be drawn during the last 15 minutes

# Consensus Panel Discussion

## Essential Cytotoxic Drugs

1. What is the value of an Essential Cytotoxic Drug List?
2. Who should develop model essential drug lists?
3. In what ways can the accessibility to essential drugs in less developed countries be ensured?
4. In what ways can quality and safety of essential drugs be ensured?
5. What role if any might INCTR undertake in these areas?
